

## *What Wood Fuel will Heat Plant Operators buy?*

*a focus on what makes wood fuel different from forest residues*

**Wednesday 27 July 2022, 1pm to 3pm**  
**Distinction Hotel, Rotorua, New Zealand**

This half-day workshop will focus on what makes wood fuel different from forest residues and how forest growers and contractors can turn residues, which would otherwise be wasted, into revenue.

With the increased demand for wood fuel for new heat plant being installed, or for cofiring in existing coal plant, it is important that contract compliant fuel is processed and delivered. Generally, the residues sourced from forest or processing plant require treatment to make them contract compliant fuel.

The preceding conference will cover the market for wood fuels while this workshop will go into the characterisation of wood fuel that differentiates it from waste. The workshop is for forest owners and harvesters who want to understand what the wood fuel supply market requires and what they can do which will provide biomass suitable as a fuel.

This workshop will outline how wood fuel is specified and discuss methods for verification of compliance to specification. Fuel supplier quality assurance systems ensure that contracts are successfully performed. Attendees will receive free copies of the Wood Fuel Supply Technical Guides.

### Workshop sponsor

**The Bioenergy Association workshop will immediately follow Residues 2 Revenues 2022 - <https://woodresidues.events/>.**

All attendees are welcome. Please register at <https://woodresidues.events/#Registration>

### Event Rescheduled

With Omicron now in New Zealand, the workshop has been deferred to 27 July 2022.

Attendee numbers will be limited to 100.

**Continuing Professional Development (CPD):** - The Bioenergy Association supports members by providing opportunities such as this workshop that contribute towards CPD credits and maintaining registration as a Registered Solid Biofuel Adviser. Contact the executive officer for more details at [executive@bioenergy.org.nz](mailto:executive@bioenergy.org.nz)

**We would like to thank our Gold members for their support:**
