

Combustion Plant – POLYTECHNIK BIOMASS ENERGY

- **Service** – POLYTECHNIK Combustion Plants
- **Provider-** POLYTECHNIK BIOMASS ENERGY LTD, Havelock North.
- **Further Details** – Christian Jirkowsky, Managing Director, **Phone** - +64 6 877 4603 03 428 2992, **Fax**+64 6 877 4607; **Mobile**+64 21 477 202
- **Email**-c.jirkowsky@polytechnik.co.nz;
- **Web-site** - www.polytechnik.com
- **Details:** POLYTECHNIK supplies biomass fuel combustion plants with a performance range of 300 kW - 30,000 kW (single boiler output). Different combustion systems are employed depending on the type and moisture content of the fuel. Hot water, high temperature water, steam or thermal oil are used as a heat transfer medium. The plants can be used to produce heating and process heat as well as to generate energy (steam or ORC process). Electrical output ranges from 200 kW to 20,000 kW (power).
- *For further details and brochures see the [POLYTECHNIK BIOMASS ENERGY web-site](http://www.polytechnik.com).*
- *For examples of the POLYTECHNIK boilers in operation, see the [BANZ Wood Fuel Database](#).*
